SOCIAL PLASTIC® E CIRCOLARITÀ

Costruiamo insieme una società rigenerativa

Dal 2020, CARTONPACK ha attivato un progetto corporate di grande valore nell'ambito della responsabilità sociale d'impresa, con due obiettivi stimolanti: dare un valore completamente nuovo e unico alla plastica riciclata e intraprendere azioni più decisive nei confronti della sostenibilità e dell'impegno sociale d'impresa, nel rispetto degli obiettivi fissati dalle Nazioni Unite.

Questo segna l'inizio di un nuovo modello di business che si innesta nella visione di un'economia circolare, utilizzando le risorse esistenti e creando contestualmente un nuovo welfare per i Paesi emergenti.

CARTONPACK si distingue oggi per essere il primo e unico trasformatore europeo di Social Plastic® per il mercato dei prodotti freschi.

Plastic Bank e l'uso di Social Plastic® rappresentano una proposta all'avanguardia nel mercato dell'imballaggio di prodotti freschi e una risposta coerente ai problemi di inquinamento ambientale e di solidarietà sociale nelle aree del mondo in cui la situazione è assolutamente di emergenza.

La nuova gamma di prodotti Social Plastic® è ora disponibile per ogni soluzione di imballaggio, anche termosaldabile.

Gli imballaggi garantiscono piena idoneità al contatto alimentare e tracciabilità della materia prima Social Plastic®, con un marchio esclusivo termoformato sul fondo dell'imballaggio. Sono prodotti riconoscibili anche dal consumatore finale, permettendo una facile comprensione dei valori intrinseci dell'imballaggio, che diventa un vero e proprio veicolo di una nuova economia circolare.

SOCIAL PLASTIC® AND CIRCULARITY

Let's build together a regenerative society

From 2020, CARTONPACK launched a highly valuable corporate project related to corporate social responsibility, with two main targets: to give a brand new and unique value to recycled plastic (rPET); to take a more decisive action towards sustainability and corporate social commitment in compliance with the objectives set by the United Nations.

This marks the beginning of a new business model that is grafted into the vision of a circular economy, using existing resources and simultaneously creating a new welfare for emerging countries.

CARTONPACK stands out today for being the first and only European converter of Social Plastic® for the fresh produce market.

Plastic Bank and the use of Social Plastic® represent a cutting-edge proposal in the fresh product packaging market and a coherent response to the problems of environmental pollution and social solidarity in areas of the world where the situation is absolutely emergency.

The new range of Social Plastic® products is now available for heat sealing solutions.

The packaging guarantees full suitability for food contact and traceability of the Social Plastic® raw material, with an exclusive thermoformed brand on the bottom of the packaging.

The Social Plastic® product range is easily recognizable, even by the end user, as they are marked with the official logo on the bottom, allowing an easy understanding of the intrinsic values of the purchased product, which becomes the vehicle of a new circular economy approach.

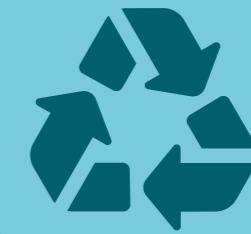

We recover ocean bound plastic for a regenerative society

LET'S MAKE THE CHANGE TOGETHER
